Friday 16 October

08.30 Registration, refreshments and exhibition

09.20 WORKSHOP - Meyrick Suite
Restorative materials - are they ready for the 21st Century?
Bob McLelland BDS, MFGDP (UK), MDentSci (Restorative)
Sponsored by Optident

Chairman: Rosemarie Khan, President 1984/1986

09.30 Welcome Address
Marina Harris, President of BSDHT

09.30 Prevention of gingivitis: fact, future or fantasy?
Martijn Rosema

Learning objectives:
• Awareness that after using a power toothbrush with an OR technology for six/nine months it will reduce plaque significantly and prevent the onset of gingivitis when compared to a manual toothbrush
• Delegates will be aware that with the use of a combination of mouthwashes the gingival condition will be improved significantly
Sponsored by P&G

10.30 The role of the dental hygienist/therapist in the treatment of caries

Learning objectives:
• To give a contemporary view on what caries is
• To suggest the importance of diagnosis of lesion activity
• To stress the essential role of plaque control with a fluoride dentifrice in caries control
• To suggest the role of dietary control in the post-fluoride era
• To demonstrate the extreme importance of saliva in caries control
• To state the role of operative dentistry in caries control
• To suggest areas of ignorance where research by hygienists/therapists could be of value

10.30 WORKSHOP - Bayview Suite
Hot topics - what’s hot & what’s not!
Andrew Collier LLM Wales, BDS
Sponsored by Dental Protection Ltd

11.30 Refreshments and exhibition

12.00 AGAM
Open to BSDHT members only

13.00 Lunch - Solent Hall
Exhibition
Chairman: Michael Wheeler, President 2006/2008

14.30 Dr Leatherman Award

14.45 The Graham Smart Memorial Lecture (part 1)
Periodontal therapy at the crossroads - infection or inflammation?
Phil Ower MSc, BDS, MGDS, RCS

Learning objectives:
• To understand the nature of periodontitis
• To explain the relevance of the bacterial biofilm in periodontitis
• To understand the difference between infection and inflammation models of therapy
• To understand how to apply the principles of inflammation resolution in everyday practice
Sponsored by GSK

15.30 Refreshments and exhibition

16.00 The Graham Smart Memorial Lecture (part 2)
Periodontal therapy at the crossroads - infection or inflammation?
Phil Ower MSc, BDS, MGDS, RCS

Objectives:
• To understand the nature of periodontitis
• To explain the relevance of the bacterial biofilm in periodontitis
• To understand the difference between infection and inflammation models of therapy
• To understand how to apply the principles of inflammation resolution in everyday practice
Sponsored by GSK

17.00 Close

Diamond Jubilee Dinner
Royal Bath Hotel, Bournemouth

The evening begins in style with a Martini (shaken but not stirred!) in the hotel’s extensive bar area, overlooking gardens and the ocean. Guests will then take their seats for a five course dinner with wine. Following dinner you will be able to dance the night away or sit, relax and chat to friends or have a flutter at the casino.

19.00 - Drinks reception and opportunity to meet “007”!!
19.30 - Dinner

After dinner speakers:-
Dame Margaret Seward and Mike Wanless

Casino • Discotheque • Dress code: black tie

Transport to the dinner venue: coaches are provided to transport guests from their hotel to the dinner venue, and return the end of the evening.

Supported by Henry Schein
Saturday 17 October

08.45  Registration, refreshments and exhibition

Chairman: Eveline Gray, President 1998/1990

09.25  Opening address
Marina Harris, President of BSDHT

09.30  Infection control - an update
Martin Fulford BDS, MPhil, DGDP, FIBMS

Learning objectives:
• To provide members of the dental team with a broad knowledge of infection control
• To enable team members to risk assess their own practices
• To enable the dental team to apply the latest standards of infection control in their own surgeries
Sponsored by Dental Directory

11.00  Refreshments and exhibition

11.30  Evidence based dentistry - do we care?
Dr Keith Milsom PhD, MSc, FDS, RCS

Learning objectives:
• Increased knowledge of evidence underpinning treatment of dental caries
• Increased awareness of weaknesses in current approaches to dental care
• Challenging of traditional approach to assessment of patients
Sponsored by Colgate

12.15  Bisphosphonates and dentistry - what you need to know
Professor Stephen Flint MAjo (U Dubl), PhD (Brist), MBBS (Hons), BDS (Lond), FDSRCS (Eng), FFDRCSI, FICD, FTC

Learning objectives:
• To inform the audience on the latest evidence for the association of the bisphosphonate group of drugs and the condition called osteonecrosis of the jaw
• To give practical clinical guidelines on how to manage in general dental practice, patients who have taken, are taking, or are about to start taking these drugs
Sponsored by Colgate

12.15  WORKSHOP - Meyrick Suite
Restorative materials - are they ready for the 21st Century?
Bob McLelland BDS, MFGDP(UK), MDentSci (Restorative)
Sponsored by Optident

13.00  Lunch - Solent Hall
Exhibition
Chairman: Margaret Ross, President 2004/2006

14.30 **What you need to know about oral cancer and precancer**
Professor Saman Warnakulasuriya OBE
BDS, FDSRCS Ed, FDRSCS Lond, PhD, DSc

**Learning objectives:** You should be able to:
- Describe demography of oral cancer in the UK and raise awareness on the topic
- Outline risk factors based on current evidence
- Briefly describe the signs and symptoms and tests used to diagnose oral cancer
- Recognise the role of the dental team in reducing diagnostic delays and arrange appropriate referral to specialists
- Understand the importance of prevention through patient education and reduction of lifestyle risk habits
*Sponsored by J&J*

14.30 **WORKSHOP - Bayview Suite**
**Hot topics - what’s hot & what’s not!**
Andrew Collier LLM Wales, BDS
*Sponsored by Dental Protection Ltd*

15.30 **Refreshments and exhibition**

16.00 **What is soft tissue management? Why do we need it in dental practices?**
Joanne Rodriguez RDH, BA

**Learning objectives:**
- Discuss current technologies available, and the role of the patient homecare regimen as a critical element in the success of treatment
- Describe the role of the clinician in the implementation of a clinically superior programme from a practice management perspective
- Discuss oral cancer screening, describing adjunct screening technologies for clinicians to detect and mark lesions much earlier with 100% sensitivity
*Sponsored by Molar*

16.45 **Current developments at the GDC - moving towards revalidation of dental professionals**
Tom Thorpe

**Objectives:**
- To understand current developments in regulation
- The GDC’s proposals for Revalidation and how they might affect you

17.15 **Closing remarks**

**CPD**
All presentations meet the requirements of the GDC’s lifelong learning scheme. Delegates will be scanned in and out of presentations, and a cumulative total will be recorded on certificates.
CPD certificates will be available online upon completion of a conference evaluation form - full details will be sent to delegates following the event.

**Photographer**
Please note that there will be a professional photographer present at the event to take photographs for promotional purposes.
